

Welcome to Snoqualmie

This walking map is provided to you by the City of Snoqualmie in cooperation with Public Health - Seattle & King County. We hope you enjoy getting out and walking. The benefits you receive in improved health are invaluable. Walking also helps build community, and waving to your neighbors as you walk by helps strengthen those connections. Running errands on foot; banking, post office, picking up a few groceries, can also save money at the gas pump. We hope you enjoy getting out and walking in your community.
